

**OMEI**

VALVOLE INDUSTRIALI

1985: foundation of Fratelli MEI from Lorenzo and Marcello Mei

2001: the company grows and takes the current name of MEI Valvole Industriali

2010: the company is positioned among the main exporters of valves in the Italian panorama

2023: today, Martina and Luca are bringing a big mission for the company: become the international reference point in the valves industry

## Innovative inclination, family attention.

We were born in Italy in 1985, and our production still is 100% made in Italy.
